Contents of Your SBC6120-RC Partial Kit

P/N	Description	Quantity
SBC6120-RC2B	SBC6120-RC2 PC Board, Revision B	1
HD6120	Harris 12 Bit Microprocessor	1
27C256	EPROM, 32K (Programmed for BTS6120 HIGH and LOW)	2
22V10	GAL 22V10 (Programmed for MEM1, MEM2, IOT1, and IOT2)	4

You may return any kit for a full refund within 30 days of purchase, less the shipping charges, **provided that it is unopened and unused** . Parts and kits **cannot be returned once construction is started** . Look it over carefully and be sure it's what you want *before* you start soldering.

If any part we ship you is defective, we'll replace it provided that you return it with in 90 days of purchase. This doesn't cover parts that are damaged by improper construction techniques, poor soldering or static electricity, so if you put that IC in backwards and blow it up, please don't send it back to us! All the expensive and hard to get ICs such as CPUs, memories, PLDs, EPROMs, etc. are 100% tested by Spare Time Gizmos before they are shipped, and we know those are OK when they leave our door. If one of the other parts doesn't work and you don't think it's your fault, then we'll take your word for it and replace it for you.
